

Convert any work surface into a refrigerated prep station.

When space is limited, Silver King countertop prep tables allow owner-operators to convert any work surfaces into a refrigerated prep station. These versatile tables combine functionality and flexibility to support any traditional or mobile foodservice operation. Silver King countertop prep tables are the perfect solution for assembling sandwiches, salads, burritos, pizzas, and more.

- Countertop design for maximum flexibility
- Environmentally friendly R290 refrigerant
- High-efficiency refrigeration system
- Stainless steel exterior with galvanized bottom
- Stainless steel interior with coved corners and finished edges

Speed-of-service in any foodservice environment is always top of mind. Countertop prep tables allow owner-operators to quickly add a refrigerated station to any operation. Whether a traditional restaurant, catering service, or mobile food truck, Silver King countertop prep tables provide the flexibility you need.

Versatile Design

Countertop prep tables provide the ability to convert any work surface into a refrigerated station. Use to store sauces and toppings, assembly menu items, or stage to-go orders. This versatile unit brings refrigerated prep where you need it.

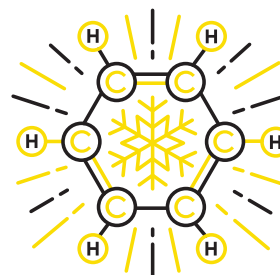

Easy to Clean

The stainless steel exterior and stainless steel interior, coved corners, and finished edges make cleaning simple.

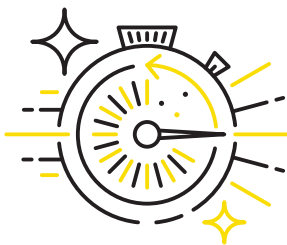

Light-Weight, Durable Construction

The stainless steel exterior and galvanized bottom combined with an stainless steel interior provide maximum durability with a light-weight design.

High-Efficiency Refrigeration System

Refrigerator units use a cold wall design to provide a uniform temperature throughout the cabinet.

Streamline Operations

Silver King countertop prep tables streamline operations by bringing ingredients directly to your work station. Refrigerated countertop compartments allow you to position key ingredients along your work surface to accelerate workflow and fast-track menu assembly.

Eco-Friendly Refrigerant

All Silver King equipment features R290 refrigerant, one of the most environmentally friendly choices with a global warming potential (GWP) of 3. R290 is proven safe, readily available, and familiar to service teams.
