

Keep essentials close at hand with undercounter refrigeration.

Silver King undercounter refrigerators are built to keep up with everyday demand by strategically storing restaurant essentials throughout your operations. These compact units are designed to utilize the space underneath your countertop or other preparation surfaces. Using environmentally-conscious refrigerants and easily serviceable components, these workhorse units ensure that your most important ingredients are close by, properly stored, and ready when needed.

- Environmentally friendly R290 refrigerant
- High-efficiency refrigeration system
- Stainless steel exterior with galvanized back and bottom
- Aluminum interior with coved corners and finished edges

Undercounter refrigerators are important to keeping food and beverage operations efficient — from point-of-use storage, display cases, to back-up supply. When investing in commercial grade refrigerators that provide functional storage, consider Silver King undercounter refrigerators.

High-Density Insulation

Foamed-in-place, CFC-free polyurethane insulation keeps cold air in while strengthening the overall unit — improving overall cost savings.

Eco-Friendly Refrigerant

All Silver King equipment features R290 refrigerant, one of the most environmentally friendly choices with a global warming potential (GWP) of 3. R290 is proven safe, readily available, and familiar to service teams.

Easy to Clean

The aluminum interior, coved corners, finished edges, plus easy lift out drawers and shelves make cleaning simple.

Heavy-Duty Construction

Designed for the harshest commercial kitchen environments with a stainless steel exterior and galvanized back and bottom, aluminum interior, and heavy-duty casters.

High-Efficiency Refrigeration System

Refrigerator units use forced air circulation to provide a uniform temperature throughout the cabinet. Freezer units additionally utilize automatic defrost, which self-manages ice buildup and evaporates moisture automatically. No unplugging or manual labor required.
